### Features

- Two-Stage Rapid Advance
- External Pressure Adjustment

Huskie's **CN-258** is used for service entrance connections up to 4/0, and its bypass cartridge assures all compressions. A two-stage, rapid advance pumping system and threaded collar save compression strokes and time.

The nest dies are D-3, and can be changed with other Kearney "O" type dies. If you wish to use Burndy "W" type dies, simply slip the "W" type over the D-3 nest die and snap them into the locked position. Huskie Tools carries a wide range of market equivalent dies. Pressure can be checked with Huskie's PG-15 pressure gauge. The tool comes complete with a carrying case.
