

# STAINLESS STEEL GROUNDING HUBS

## Features:

- Manufactured in type 316 stainless steel to meet any stringent sanitary condition
- Polished with standard “brite” finish to increase corrosion resistance and aesthetic appearance
- Designed for use with stainless threaded conduit
- Use of neoprene O-ring assures weatherproof seal
- Includes a type 316 stainless steel locknut for a secure installation
- No package quantity required

## Certifications and Compliances:

- NSF / ANSI 169 Certified
- Made in USA

## Applications:

To connect threaded stainless conduit to a threadless opening in a box or enclosure in an outdoor or indoor location. To positively bond conduit to a box or enclosure.

Part Number	Trade Size (in)	A (in)	B (in)	Width (in)	Thread Length (in)	Grounding Screw (in)	Weight per each (lb)
