

Stainless Steel Flex to EMT Connectors

Features:

- Manufactured in type 316 stainless steel for increased corrosion resistance
- Excellent strength and durability
- Polished with standard “brite” finish to increase corrosion resistance and aesthetic appearance
- Compatible with Calbrite™ stainless steel flex and EMT
- No package quantity required

Certifications and Compliances:

- NEMA 4X approved

Applications: Used to easily connect stainless flexible conduit directly to stainless EMT. Assists in preventing contamination of oils, dirt, dust, and liquid when used with Calbrite PVC coated stainless flexible conduit.
