FUTUREPATH ENTRY SEALS

FuturePath Entry Seals are an effective solution to protect multiple pathway configurations from water, dirt, and rodents. These seals have a simple installation process with no specialty tools required. A split-design makes this product ideal for both new and existing FuturePath pathways and allows the seal to be placed at any location on the duct itself.

- ▶ Re-usable and removable
- ▶ Prevents dirt and dust from entering FuturePath
- ▶ Air- and water-resistant
- ▶ Simple installation with no special tools required
- ▶ Available in popular 2-way, 3-way, 4-way, and 7-way FuturePath configurations
- ▶ Fit a conduit ID range of 3.92" – 4.25" *20095076 fits a conduit ID of 3.92" – 4.18"
