**RAM STROKE** 1.5" TRAVEL

**OIL VOLUME** 312 CC

#### CONNECTOR RANGE

**LUGS** Up to 2000 MCM Cu/Al

**SPLICES** Up to 2500 MCM Cu/Al

#### ORDER DATA

**EP-V60SA** 60-Ton Single Acting Compression Head

The **HUSKIE TOOLS EP-V60SA** is a versatile single acting 60-ton press designed to compress sleeves and lugs on ACSR and ACAR transmission and distribution cable.

This press is also designed for substation construction, operable from any 10,000 psi pumping source with proper oil capacity. The EP-V60SA is portable & lightweight for easy maneuverability and can be operated utilizing the oblong lifting ring and readily accepts any shell type dies currently used with Alcoa or Burndy "L" type dies for 60-ton presses.

**NOTE:** Always use 10,000 psi rated non-conductive hose (NC-16 series) when using any of these high-pressure tools.
