The difference MOLDED Makes

Molded Flange Adapters from Integrity Fusion Products have quickly become a market leader. By injection molding our flange adapters, we offer a high quality and consistent product every time. The self sealing design on the hub face eliminates the need for a gasket for most applications.

IntegriFuse Fittings are manufactured from the highest quality black high density bimodal polyethylene copolymer designed for use in, but not limited to, potable water, natural gas, industrial, landfill, oil & gas, and mining applications.

All IntegriFuse fittings meet ASTM –D2513 & ASTM D3261 (where applicable).
FM Approved.
