- Flip-Top Latch Head
- Adjustable Heavy Duty Material Clamping System
- Easily Replaceable Cutting Blades
- Supplied With Sturdy Storage Case

* Consult Factory

The Huskie **SP-32CC1** is our most durable head unit, its heavy duty design allows it to cut material most other cutter heads will not. It works with most 10,000 psi high pressure pumping systems. Its flip-top latch allows for easy insertion of cutting material. Our unique adjustable heavy duty material clamping system helps to ensure cleaner, safer cutting. The SP-32CC1's cutting blades are easily replaceable. The SP-32CC1 comes with a sturdy metal case.
