

CLEVIS ASSEMBLIES

KEY FEATURES

- ✓ C45 Cast Steel
- ✓ Hot dipped galvanized plating
- ✓ Complete with clevis cotter pin
- ✓ Load Ratings to 50,000 lbs.

Slingco Clevis Assemblies are designed to provide the attachment points required for your application. They are cast in steel and galvanized to protect against the elements and to provide long life use. Different clevis designs are available to connect to suspension clamps, hold down weights and stringing blocks. Plus versions are available with different load ratings to ensure a consistent match to the product being supported. Call for assistance in selecting the proper clevis assembly for your needs. Available options include clevis fittings for 7" distribution blocks in U, Y and hook styles.
