

HOSE ARMOUR SOCKS FOR HOSE PROTECTION

KEY FEATURES

- ✓ Double weave lattice
- ✓ Suited to harsh environments
- ✓ Protects hydraulic and other hoses
- ✓ Minimises damage from external objects

Protect hydraulic and other hoses in harsh environments. The wire mesh covering minimises damage to hose exterior from rocks, metal and other hazards common on construction and oil field sites. Hose armour kits come complete with clips for securing armour.

Dimensions

The figures shown are indicative only. Fully dimensioned data-sheets are available on request. Nominal figures/actuals are as per data-sheet with tolerances of +/-5%. Please contact us if you have any questions.

Range dimension overlaps If the cable, rope or hose you have lies where ranges overlap, e.g. 1" when sizing is 0.5-1.00 and 1.00-1.5 we recommend that you select your cable grip to achieve break load first. If tensile strengths are equal or both adequate, choose the smaller of the two. Please contact us if you have any questions.
