

RATCHET CUTTER

KEY FEATURES

- ✓ For cutting of hard cable
- ✓ ACSR & CU-AL Cutter models
- ✓ Smooth ratchet operation
- ✓ Cuts ACSR and other hard cable cleanly

The Slingco Ratchet Cutter is designed to cut hard cables cleanly and smoothly. The ratchet design provides leverage, increasing cutting force with each open and close of the handles. Makes cutting cable easier compared to manual cutters.

The handles surfaces are designed to allow a firm, secure grip. The ratcheting action makes these cutters easy to operate even in limited spaces with just moderate pressure.

ACSR and CU-AL Wire Cutter models

Do not use on energized lines.

Slingco Part No.	Description	For Cutting	Length in (mm)	Weight lb (kg)

RATCHET CUTTER

Dimensions

The figures shown are indicative only. Fully dimensioned data-sheets are available on request. Nominal figures/actuals are as per data-sheet with tolerances of +/-5%. Please contact us if you have any questions.

Range dimension overlaps If the cable, rope or hose you have lies where ranges overlap, e.g. 1" when sizing is 0.5-1.00 and 1.00-1.5 we recommend that you select your cable grip to achieve break load first. If tensile strengths are equal or both adequate, choose the smaller of the two. Please contact us if you have any questions.
