

STAINLESS STEEL CONNECTOR/BOX SOCKS

KEY FEATURES

- ✓ Dual weave lattice
- ✓ Made from 304 Stainless steel
- ✓ Reduces strain on electrical termination point connections

Dual Weave – these socks are designed with a ring to support electric cabling from termination point to reduce strain on the connections. 304 stainless steel.

It does not constitute part of a legal offer or contract. For technical specifications, please contact Slingco Australia Pty. Ltd

Dimensions

The figures shown are indicative only. Fully dimensioned data-sheets are available on request. Nominal figures/actuals are as per data-sheet with tolerances of +/-5%. Please contact us if you have any questions.

Range dimension overlaps If the cable, rope or hose you have lies where ranges overlap, e.g. 1" when sizing is 0.5-1.00 and 1.00-1.5 we recommend that you select your cable grip to achieve break load first. If tensile strengths are equal or both adequate, choose the smaller of the two. Please contact us if you have any questions.
