

# WINCH LINE BLOWER

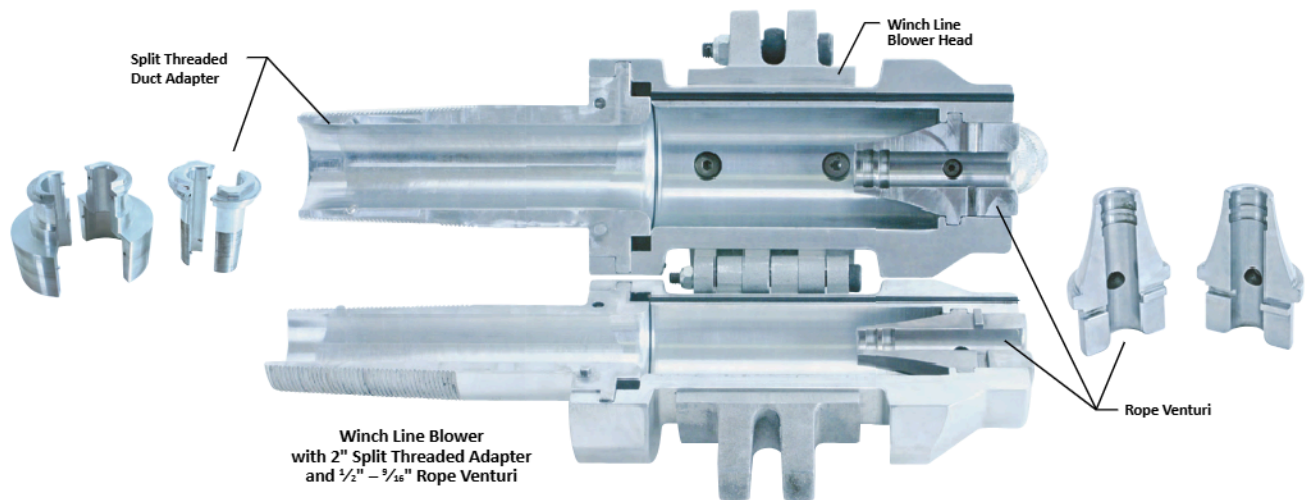

## The Condux Winch Line Blower

The Condux Winch Line Blower is a tool for installing winch line, rope or pull tape into conduit. It turns the job of placing winch line into one easy step, eliminating the need to blow a string and pull back a rope.

Using compressed air, 90 psi (6.2 bar) and 100 cfm (2.8 cmm), the winch line blower can propel steel winch line, rope or tape in conduit from 1" to 6" in diameter.

Installation is easy. No special tools are required.

| Split Threaded Adapter Part No. | Duct Size (in) | (Duct I.D. Range)                  | Rope Venturi                  |                                   |                 | Conduit Carrier |
